

Request reference: 1685\_13

**How many people living in Coventry have gone missing since 1 January 1980 to 1 June 2012, and subsequently never been found? I would like to know the total number of people who have gone missing during those dates, the date they disappeared, the missing person's name, age and where they went missing from.**

This response refers to those who have been recorded as missing by the Coventry Local Policing Unit and not found by the 29<sup>th</sup> June 2012; the date of your initial request.

During the period you specified, there were 11,200 missing reports created for people in the Coventry area.

In total, there were 26 people reported missing during this period who are yet to be found. In accordance with Section 30 and Section 40 of the Freedom of Information Act 2000, we have found it necessary to omit the personal data of those whose profiles are not in the public domain. A full explanation of these exemptions can be found in the response letter. Therefore, instead of one table detailing the information about all 26 missing persons, the data has been divided into two separate tables. While Table 1 has the majority of the data that you have requested (excluding the dates of birth) Table 2's data has been restricted to the year of disappearance and age at the time of disappearance. Please note that since this data was correct as of 29<sup>th</sup> June 2012, the status of these missing individuals may have changed.

**Table 1**

<b>Surname</b>	<b>Forename</b>	<b>Age<sup>1</sup></b>	<b>Address</b>	<b>Report Date</b>
