

1. Who is your Force lead for Digital Policing?

ACC Crime, Alex Murray.

2. How many analysts does your Force employ in Digital Policing?

Every aspect of policing in the 21st century can be expected to incorporate a digital element, so we do not specifically differentiate between analysts and expect all to have an understanding of digital capabilities and digitally enabled crime and vulnerability.

3. How many Body Worn Videos/Cameras does your Force have?

We have purchased 1617 Axon Body 2 cameras, but we still have a number of old cameras from the trials in force, only some are still in use.

Only 1400 of the cameras will be initially used with the rest kept as reserve/replacement stock

56 Edesix cameras

43 Reveal media cameras

4. How many officers/staff does your Force have who are trained in Facial Recognition = 4

Aurora Facial Recognition = 1

Livescan and Facial Capture Training - Custody Office Assistants = 3

5. How many officers/staff does your Force have who are trained in Predictive Analysis

This is under development through our Data Driven Insights project.

6. How many officers/staff does your Force have who are trained in Crime Mapping

We have 177 staff/officers who are on our list as having been trained in MapInfo Professional GIS however not all of these use it for "crime mapping" – We estimate that approximately 150 use it for some element of "crime mapping" in their roles.

Please note: Some of the people we have trained may have subsequently left the organisation
