

Please could I have the following information in spread sheet format for the years 2013-2016 (please omit 2016 details if not applicable)

- The number of police officers that were stationed at Birmingham's German Market each year

We are unable to identifying how many staff we had posted directly to the German market in 2013 & 2014, therefore this information is not held. The markets are predominately staffed via a private security team which is funded via Birmingham City Council, our policing foot print has always been small with the exception of us reacting to threats (Paris attack). Please see attached.

-The number of Police called out to the German Market

Please see attached which is broken down into the amount of officers called to the German Market and also the number of logs that we had during that year.

-The number of incidents recorded by the police, including the date it occurred and brief details of incident e.g. assault/ theft

Please see attached for the number of crimes we had reported/recorded and brief crime type.

The number of arrests made at the German Market, again including the date it occurred and brief details of incident

See:

http://foi.west-midlands.police.uk/german-market-12905_16/

-The cost incurred to the police force each year as a result of policing at the German Market

| YEAR | TOTAL |
|--------------|------------------|
| 13/14 | 5,764.69 |
| 14/15 | 8,954.10 |
| | |
| TOTAL | 19,065.48 |

The cost to the force in 13/14 & 14/15 can be seen on the table above.

Policing activity in 15/16 and 16/17 related to the German Market was not recorded separately from normal policing activity. Therefore data for these years is not held.
