Contact: 101 / Contactusnew_WMP@west-midlands.pnn.police.uk

Do you currently use any real-time analytical software? If so, what do you use and what do you use it for?

No we don't have any real-time analytical software.

What storage platform are you using for the data that is generated by body worn cameras?
Do your officers use body worn sensors and if so, what information are they collecting and how is it being used?

We use cloud storage and are currently utilising SkyScape (UK Cloud)
We do not use police issue body worn sensors.

Do you collect data from Police owned vehicles via sensors or other means in order to aid policing?

Not currently, however a project is in the process of being tested.
