

The number of speeding offences recorded in your area in the past 6 months (May-October 2017) – **17441**

The number of speeding offences recorded in your area in the same period last year (May-October 2016) - **33641**

Additionally, I am also looking for information around the make and model of cars that have been caught in speeding offences. We are essentially looking to understand in your force's region - we need a list of makes/models and the frequency of speeding offences. The data we need is the months from Jan-Jun 2017. I understand from other forces that model may not always be present, so in such occasion, make alone will do.

Please see below:
