

At Dudley Zoo, between 2013 -2016 and 2017 to date, broken down by year and month:

- **The number of calls for service to the zoo**
- **The initial classification for each call**
- **A keyword search in the brief incident detail to identify whether any species of animal was involved and whether any injury/fatality occurred.**
- **The incident result**

The records extracted from our database are incidents where the location given by the caller is Dudley Zoo. Several of the records relate to incidents that happened to occur in the vicinity of the zoo but do not necessarily relate to the zoo itself such as disorder in the nearby area or incidents involving vehicles such as damage and/or road traffic collisions. Additionally, the figures do not relate to separate incidents; they relate to the number of calls received and multiple calls may have been received in respect of one incident. Related to the keyword search conducted, I can tell you that one record related to concerns for animal welfare (flagged below) but no species of animal were identified in any of the records.

Incident Date Month	Incident Date Year	Initial Incident Class	Incident Result	Final Classification
Jan	2013	MISCELLANEOUS	NO FURTHER POLICE ACTION REQUIRED	PUBLIC SAFETY/WELFARE SUSPICIOUS CIRCUMSTANCES
