

1. Please detail the number of reported 'crimes' involving corrosive substances in or near schools/colleges.
2. If you are unable to find responses for "near" you may omit it.
Please provide figures for the past four calendar years, broken down by year.
3. If possible, please provide a breakdown of the ages of the person found to be carrying the corrosive substance. Eg, xx number of 15 year olds. xx number of 17 year olds etc.

Following a search of our Crimes database, under the weapons list: ACID - BOILING WATER - CIGARETTE-BURNING In the 'Weapons Use' field, we located one reported offence in 2016, however there is no suspect listed, therefore we are unable to answer question 3.
