

I'd like to know the number of servicing Police Officers (of all ranks) that are on a career break and are pursuing a business interest or are working during their career break in the years 2018 & 2019?

There are a total of 12 individuals listed with Business interests who are currently on a career break, however some of those would have been approved prior to commencing the Career Break and it does not constitute an acceptance that they would continue them during the Career Break.

Pre-existing business interests (for example, if someone had an approved business interest of property rental, they would not be required to stop renting out their properties while on a career break).
