

The number of hate crimes recorded in schools over the past 2 years in the West Midlands (ideally June 1st 2017 to 31st May 2018 and then June 1st 2018 to 31st May 2019)

If possible, please could you set out where religion, sexual orientation or disability were a factor in the hate crimes recorded

I would like a monthly breakdown of information for the last 12 months you have on record - and the year preceding this

Please see below information broken down by primary location of 'educational' and victims aged 17 and under

Please note: We don't have a primary location field for school – only 'educational' so this could include colleges and universities although we have only provided data for victims aged 17 and under as stated above
