REQUEST 280A/20

I am seeking information active average speed cameras on the B4110 London Road, Coventry

Can you please provide the number of recorded speeding offences from 14/04/2020 to 01/06/2020 on the London Road, Coventry, I am require information on two average camera zones the first the zone from Daventry road junction that heads towards the city centre and the second zone that is on the opposite side of the road out of the city centre but both cameras locations are on the London Road.

Site Number 520 – A4114 London Road between Ringway St Johns and Daventry Road – 1025 offences recorded

Site Number 521 - A4114 London Road between Daventry Road and Ringway St Johns - 956 offences recorded

We have provided data in relation to the A4114 for this question as this is the zone that incorporates the London Road as this has the zone of Daventry Road into the City Centre and back again, rather than the B41140 as you suggested.
