

Police forces in the United Kingdom are routinely required to provide crime statistics to government bodies and the recording criteria are set nationally. However, the systems used for recording these figures are not generic, nor are the procedures used locally in capturing the crime data. It should be noted that for these reasons this force's response to your questions should not be used for comparison purposes with any other response you may receive.

Highest number of closed incidents in Coventry, where location is a Nightclub, Public House, Restaurant or Hotel, 2013

Please note that due to inconsistencies in the way incident addresses are recorded these data are unlikely to accurate, as one location may be recorded in a number of different ways.

Please also note that an incident is any event that has been reported to the police. Not all of these incidents will involve a recordable offence/crime and the incident may not necessary be linked to, or have occurred on, the named premises. It may merely have been the closest identifiable landmark.
