

REQUEST

I am looking for information regarding deaths in Custody and other Police Holdings. In particular we are looking for information regarding the following since 2010.

- **Number of deaths and/or injury caused by self harm**

Two deaths and ten near-misses (where the individual in custody has attempted, but intervention has prevented death)

NB: These were all caused by strangulation with various items, so may not fit under the definition of "self-harm".

There were no other referrals to PSD which covered self-harm.

- **Number of deaths and/or injury caused by stabbing between detainees**

There have been no incidents referred of stabbings in custody, either between detainees or by a detainee on staff members.

- **Number of deaths and/or injury caused by stabbing between detainees on staff members**

As above
