

Could you list for me how many West Midlands Police officers have been dismissed through gross misconduct hearings. Could you provide the numbers from 2013 to 2018 please. Also could you provide the reasons for dismissal such as theft, inappropriate behaviour, common assault.

NB Data up until 31/10/2018

Year of Hearing	Number of Officers
2013	11
2014	12
2015	10
2016	13
2017	15
2018	6
Total	67

The table above represents the number of officers. However because an officer may be under investigation for multiple allegations, and under the same allegation type, the table below represents the number of allegations (not the number of officers). That is why the totals between the two tables do not match.
