

REQUEST

Hello - you recently published an FOI, number 18068_18.

Would it be possible to please find out which of these statistics are relative to Coventry please?

That is for all aspects of the data in the FOI including ages of suspects, outcome and the type of blade/weapon involved.

If possible, could you please also tally up which ages, outcomes and weapons go together?

To provide data at this low level could lead to the identification of an individual and would attract exemptions for example Section 40 – Personal Information.

1. Please provide the recorded number of possession of a bladed article offences that have taken place where the location is a school/educational facility and where the person suspected of the offence was a child (under the age of 16) for the calendar years:
