

ORIGINAL REQUEST

As of the 1st January for each calendar year from 2010 to 2019; how many operational vehicles did the force have in its fleet?

As of the 1st January for each calendar year from 2010 to 2019; how many operational vehicles equipped with blue lights and sirens for emergency responses did the force have in its fleet?

REFINED REQUEST

If you have no historic data then your current data will be fine. Are you able to offer any indicator of the increase or decrease in the size of your fleet over all or some of the time period I asked for? Maybe a percentage increase or decrease in vehicle numbers?

If not then your current fleet numbers will be great.

Since 2012 the core fleet has not reduced by more than 2%. The whole fleet which includes non-owned vehicles (Hire, Contract or sponsored vehicles) has reduced by 8.27%

The whole fleet including vehicles we don't own and are funded by partner agencies is 1548 this includes vehicles, plant and trailers.
