(i) Between 1 January 2010 and 31 December 2019, how many women voluntarily disclosed to the police that they had unlawfully assisted or encouraged another person to end their life (in breach of the Suicide Act 1961)?

Unless its specifically mentioned in the MO notes that the suspect/defendant has voluntarily disclosed the commitment of the crime we wouldn't know whether or not they have. Even if it was mentioned - it would be a proxy. MO notes have been manually checked and no such records have been found.
