

Since 2016 how many west midlands police officers or staff have been subject of discipline relating to allegations of racial discrimination, aggravated racial assault or similar?

I would like to know how many allegations have been made during this period and as a result how many officers or staff have been subject to disciplinary proceedings as a consequence of these allegations?

**We have conducted a key word search of allegation summaries for the words 'Racist' and 'Racial'. The search brought back 199 subjects and 194 outcomes.**

**Please see below for further details:**
