1) How many* missing children incidents were recorded as high, medium and low risk in each month from March 2020 to September 2020?**

	March	April	May	June	July	August	September
High	43	38	38	41	52	42	43
Medium	746	502	583	614	639	683	701
Low	45	27	45	31	38	30	33
No Apparent Risk	0	0	0	0	0	1	0

March 2019 – September 2019

6) How many* missing children incidents were recorded as high, medium and low risk in each month from March 2019 to September 2019?**

	March	April	May	June	July	August	September
High	51	42	48	38	36	40	36
Medium	371	308	392	357	389	305	324
Low	42	23	61	69	69	53	42
No Apparent Risk	0	0	2	3	6	1	0

*Numbers relate to risk on 'first assessment' only. If risk levels were increased or decreased during the missing episode, the 'final' risk level will not apply to the numbers above

**A number of reports are received with risk level 'Not Evaluated/Not Specified' at the time they were created
