

Can you provide information on the amount of fines which West Midlands Police have given in relation to Covid-19 breaches, due to lack of social distancing etc, in 2020 to date?

Can you list:

- 1) How many fixed penalty notices has WMP issued for £100 for a first time offence?
- 2) How many fixed penalty notices has WMP issued for £200 for second time offences?
- 3) How many fixed penalty notices has WMP issued for £400 for third time offences?
- 4) How many fixed penalty notices has WMP issued for £800 for fourth time offences?
- 5) How many fixed penalty notices has WMP issued for £1,600 for fifth time offences?
- 6) How many fixed penalty notices has WMP issued for £3,200 for sixth time offences?
- 7) How many fixed penalty notices has WMP issued for £6,400 for seventh time offences?
- 8) How many £10,000 fines have been issued by WMP for anyone facilitating or organising illegal raves, unlicensed music events or any other unlawful gathering of more than 30 people?

Please note that West Midlands Police do not “issue” fines, we record them and ACRO actually issue the fines. Please see the following link:

<https://www.acro.police.uk/>

We currently have issued Fixed penalty notices to 1216 unique people, the highest any individual (that we have matched) is 4

12 of the 13 super fines will have been for organising / permitting unlawful gatherings of more than 30 – the other says 24 people
