

Clarification:

All of the categories under Violence Against the Person\* highlighted green in the image would be of interest.

\*Attempted Murder ; Common Assault ; Manslaughter ; Murder ; Other Violence ; RA Wounding ; Section 18 Wounding ; Section 20/47 Wounding ; Serious Harm

As information on Non Accidental Head Injury is not available, please provide the injury codes: '1': 'Fatal', '2': 'Serious', '3': 'Slight', '4': 'Threats', '5': 'None' instead.

**1. How many suspected crimes of violent assault have you investigated in the following time periods (i) 1.4.18 to 31.3.19, (ii) 1.4.19 to 31.3.20 and (iii) 1.4.20 to 30.9.20 where the victim has been a child aged under the age of three (so 0,1 or 2)?**

Count of violent offences recorded during the requested time periods where the victim is under 3 years of age:

Time Period	Total
Apr-18 to Mar-19	904
Apr-19 to Mar-20	1,158
Apr-20 to Oct-20	743
Grand Total	2,805

**2. How many suspected crimes have you investigated in the following time periods (i) 1.4.18 to 31.3.19, (ii) 1.4.19 to 31.3.20 and (iii) 1.4.20 to 30.9.20 where the victim has been a child aged under the age of three (so 0,1 or 2). Please provide the injury codes: '1': 'Fatal', '2': 'Serious', '3': 'Slight', '4': 'Threats', '5': 'None'.**

Count of all offences recorded during the requested time periods where the victim is under 3 years of age and an injury code\* has been used:

Time Period	Injury Code					Total
	1. Fatal	2. Serious	3. Slight	4. Threats	5. None	
Apr-18 to Mar-19	5	11	194	1	790	1,001
Apr-19 to Mar-20	0	4	16	1	158	179
Apr-20 to Oct-20	2	12	161	4	598	777
Grand Total	7	27	371	6	1,546	1,957

*\*Please note this data only includes offences where an injury code has been entered (injury codes are not entered on all occasions).*

**NB** Age is calculated from date of birth as recorded on our systems, however, we are aware of data quality issues with regard to the recording of dates of birth. Therefore, it cannot be confirmed that all the data relates to victims under the age of 3 as this would require manually reviewing every case to identify any inaccuracies which would exceed the time/fees limit.
