

I would also like to enquire as to whether it is possible to have access to crime stats so that I can analyse how many of the reported sexual related offences cases involving transgender individuals are charged and convicted.

I would like to request statistics on:

- How many sexual related offences cases involving transgender victims were reported each year between 01/11/2009 and 01/11/2020.

2014 = 2

2018 = 1

2020 = 2

- How many sexual related offences cases involving transgender victims were charged each year between 01/11/2009 and 01/11/2020 - **0**
- How many sexual related offences cases involving transgender victims were convicted each year between 01/11/2009 and 01/11/2020 - **0**

We have answered questions 1-3 by searching for all Sexual Offences with a TRANS Hate Strand, however this was only introduced in 2014 therefore anything prior to that date would require a manual search which would exceed the FOI time limit.

- How many sexual related offences cases involving transgender suspects were reported each year between 01/11/2009 and 01/11/2020.
- How many sexual related offences cases involving transgender suspects were charged each year between 01/11/2009 and 01/11/2020.
- How many sexual related offences cases involving transgender suspects were convicted each year between 01/11/2009 and 01/11/2020.

I will use these statistics to find the average per year between 01/11/2009 and 01/11/2019 and compare to the results for this past year, 01/11/2019 - 01/11/2020.

In relation to questions 4-6 we don't have a category of 'Transgender' on our systems for the gender of Suspects, so again to locate and retrieve this information would exceed the FOI time limit.

Please also note we do not hold conviction data so are unable to answer the two questions above relating to convictions.
