

**Q1) Between 1 January 2020 and 28 February 2021, how many individuals have been reported to your force as missing from a care home? (could you please break this information down per month).**

Total of Missing Reports* From a Care Home:													
5402													
Jan20	Feb20	Mar20	Apr20	May20	Jun20	Jul20	Aug20	Sep20	Oct20	Nov20	Dec20	Jan21	Feb21
551	451	455	303	376	387	396	440	410	395	336	340	317	245

\*The figures above relate to missing *reports* and not *individuals*. I.e. if a single person was reported missing 5 times during this period they would have generated 5 separate missing reports.

**Q1a) In how many of such recorded missing persons cases over this (monthly) period was the missing person found 'safe and well' by police or voluntarily returned to their care home/ care provider?**

There are discrepancies between recorded *missing* and recorded *found* reports due to different officers updating information when creating and closing a report, therefore found reports are generally more reliable for statistical purposes. Also to note: If the child returned to the care of parents this would have been updated accordingly and this missing episode would therefore feature in the *missing* search only.

Total of Found Reports* for Care Home Residents:														
5383														
	Jan20	Feb20	Mar20	Apr20	May20	Jun20	Jul20	Aug20	Sep20	Oct20	Nov20	Dec20	Jan21	Feb21
Total	560	442	460	308	366	383	389	432	418	390	346	325	323	242
