

From September 21st 2020 to present February 1st 2021, how many burglaries from domestic homes have occurred in Wolverhampton and if possible, how many were distraction burglaries?

Secondly, if possible, how many burglaries / distraction burglaries occurred in the Bilston neighbourhood for the same time period?

Thirdly, adding to the questions above, what was the most common age group / demographic that was victimised as a result of these burglaries?
