

1/ How many static/permanent speed cameras are there in your authority? –

We do not have any Gatso cameras. We do however have 57 average speed locations (some being 1 road bi-directional)

2/ How many additional speed cameras (hand-held) will be in operation over the summer holiday period (22nd July to end of August) –

We have 4 mobile vans that have been in operation the whole year through and will continue to be in operation. In addition throughout the force area there will be approximately 33 devices that will be deployable during the requested time period

3/ How much money was paid in speed fines in July and August 2020 and July and August 2019? –

We are unable to say if someone was fined as fines are imposed at court, you would need to contact HMCTS for this information. Please also note that the fines are paid and the money goes to central government, not to police forces.
