

I would like to know how long West Midlands Police keep local information on the police national database. This includes Community Resolution Orders and other local police information relevant to crimes stored locally. After a certain amount of time this information may be removed from the police database and therefore not show up on enhanced DBS checks.

**WMP do not rely on PND for Enhanced DBS checks and use local systems instead. WMP pay due regard to Management of Police Information (MoPI) guidance which sets retention periods based on the seriousness of the offence. More on MoPI can be found on the College of Policing website –**
