Section 2 - Purpose, Scope and Context

In this section you must explain what the processing is, who it will involve, and the intended impact. You must also demonstrate why the processing is necessary and proportionate, providing evidence to support your assessment.

- The processing must be necessary for the specific objective of the proposal.
It must also be proportionate, meaning that the advantages resulting from the processing should not be outweighed by the disadvantages to individuals.

2.1 Please briefly explain the specific aim and purpose of the proposal in a way that someone with no prior knowledge could easily understand; avoid technical language and acronyms.

The aim of the project is to develop a statistical model to predict the likely number and most likely locations of violent crimes committed over a four week period.

2.2 What categories of personal data will be processed? Provide an overview of the categories of personal data that will be processed, for example: names, DOBs, addresses, health data, criminal records, or any other unique identifiers such as IP addresses, usernames, e-mail addresses.

It is not currently envisioned that personal data will be processed, since the unit of analysis is the crime record.

2.3 Will special category data be used in the proposal? (Select all that apply)

- Checkboxes for Race, Ethnic origin, Political opinions, Sex life, Religion, Philosophical beliefs, Trade union membership, Genetic Data, Biometric Data, Sexual orientation, Health, and None (checked). Includes text: This is likely to be in a collateral sense.

2.4 How will the data be collected? Briefly outline how you will obtain the data, examples include: directly from data subjects, from another data set already in the WMP's possession, from a different force.

Please refer to the General Data Analytics Lab (DAL) DPIA

2.5 How will the data be used? Briefly describe how the data will be used, recorded, and stored and who it will be shared with.

Please refer to the General DAL DPIA

2.6 How many individuals will the processing affect? (Please specify one answer below)

- Checkboxes for Fewer than 100 data subjects, 100 to 1000 data subjects, 1000 to 5000 data subjects, and More than 5000 data subjects (checked).

2.7 What categories of data subject are involved? (Please select all applicable categories below)

- Persons suspected of having committed or being about to commit a criminal offence
- Persons convicted of a criminal offence
- Persons who are or may be victims of a criminal offence
- Witnesses or other persons with information about offences
- Children or vulnerable individuals
- WMP staff (current and former)
- Other

If other then please provide further details below:

This project examines events rather than individuals.

2.8 Will it involve the collection of new information about individuals? Will WMP collect data that it has not previously collected or had access to?

- Yes
- No

2.9 Data Sharing

Does the processing involve:

Select one option

2.10.1	Data being shared with third parties external to WMP or recipients that have not previously had routine access to the information?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No Could be shared with the Violence Reduction Unit
2.10.2	Transferring data outside the UK but within the EU?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2.10.3	Transferring data outside the EU?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2.10.4	Storing data using a cloud service provider?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2.10.5	Is there an ISA, contract, or other sharing agreement in place with all parties with whom data will be shared?	<input checked="" type="checkbox"/> Yes – agreements in place <input type="checkbox"/> Not yet – agreements required <input type="checkbox"/> No – none required

2.10 Why it is necessary to use personal data to achieve the aim and why can't the aim be achieved by other means?

For example, can the aim be achieved by using less data or different types of data?
Are all categories of data necessary to achieve the aim?

Personal data will not be processed specifically for this project

2.11 Explain how the use of personal data is proportionate to the aim of the proposal.

Weigh the advantages of achieving your purpose against disadvantages to data subjects.

Section 3 – Lawful Basis

3.1 Lawful Basis

To process personal data you must have a lawful basis. Please select the one appropriate lawful basis from the drop down list.

Lawful Basis for **Operational Data** (Personal data processed for law enforcement purposes):

Necessary for a law enforcement purpose

Lawful Basis for **Administrative Data** (Personal data processed for non-law enforcement purposes, e.g. for HR or Commercial purposes):

No

Section 5 – ICO: Additional Factors

The Information Commissioner’s Office have published a number of factors that present a ‘high risk’ when processing personal data. Saying yes to one or more of the following may indicate that the processing is high risk and a Stage 2 DPIA is likely to be required.
