

The information I require:

- 1) Whether your force has a SPOC (Single Point of Contact) to deal with/advise on stalking allegations

Yes - we have four Stalking SPOC's

- 2) If so, how long the SPOC has been in post (specifically the role of SPOC on stalking – not their wider job as a whole)

3 have been in post since October 2021 – there was only one prior to this time. As of this month there are four.

- 3) The force's total number of SPOCs for stalking (if the number is greater than one)

See above

- a) From November 2012 – September 2022, how many stalking allegations did your force deal with? I would like this information broken down by calendar year

- b) From November 2012 – September 2022, how many stalking allegations led to a successful conviction? I would like this information broken down by calendar year

- c) From November 2012 – September 2022, how many stalking allegations were dropped before arrests or charges could be made? I would like this information broken down by calendar year

See attached
