

REQUEST

Please could you provide the following information

Please provide for 2022:2021:2020:2019

The total number of mental-health-related incidents that police were called out to.

The total number of non-crime related incidents that police were called out to.

The total number of incidents police were called out to.

Year	Total Incidents	Total Incidents Attended	Total Incidents Mental Health	Total Incidents Attended Mental Health	Total Non-crime - Incidents
2019	850,599	345,658	16,682	10,422	37,725
2020	660,839	324,969	12,101	8,430	54,272
2021	630,672	316,771	11,711	8,141	60,980
2022 – up to 31/08	416,757	204,466	7,379	4,478	40,447
Total	2,576,911	1,197,309	47,953	31,525	193,424

In relation to the total number of non-crime related incidents that police were called out to, we do not have a central recording category within the non-crime system which identifies if we attended. Each non-crime log would need to be located and retrieved and manually read to see if the summary detailed if an officer was requested to attend, this would exceed the cost threshold under FOI.
