**Q. Please could you provide me with information on the following:**

***The gender split (as percentage) across officers for these departments within your force; Response, Neighbourhood, Firearms, Reactive CID, Public protection, Polit, Mosovo.***

A. See following table (data are correct as at 01 November 2022):

| Department  | Percentage of Officers |        |
|---|------------------------|--------|
|   | Female                 | Male   |
| Response  | 31.10%                 | 68.90% |
| Neighbourhood                                       | 36.70%                 | 63.30% |
| Firearms  | 2.70%                  | 97.30% |
| Reactive CID  | 43.70%                 | 56.30% |
| Public Protection                                   | 53.60%                 | 46.40% |
| POLIT* (Police Online Investigation Team)           | 27.30%                 | 72.70% |
| MOSOVO^ (Management of Sexual or Violent Offenders) | 60.20%                 | 39.80% |

\* We don't have a department specifically titled 'POLIT'. Therefore, data has been extracted using two teams with Cyber in team name (ECU & ROCU) plus Intel Internet Intelligence Investigation Team.

^ We don't have specific Violent Offender Managers, so have used all officers with Sex Offender Manager / Management in their job title.
