

My enquiry does in fact refer to incidents/accidents that have involved police vehicles and uninsured drivers where you may have executed a police tactical stop.

Motor Accident claims against MIB – Tactical stops

01/01/2020 – 31/12/2020

01/01/2021 - 31/12/2021

Could you advise of the number of claims and their value for the same periods that would have been submitted to the MIB but for your knowledge know they would be rejected.

From 01/01/2020 to 31/12/2020 the number of reported TPAC/Tactical Stops were 44

From 01/01/2021 to 31/12/2021 the number reported was 27

Please note: if the officer has not reported correctly on the paperwork it will not show on the report.

When damage to a vehicle is solely caused by TPAC contact they are not submitted to the MIB. Therefore, there are no figures to provide.
