

Please can you tell me how many drivers in the below age groups have been involved in a car crash in the past five calendar years (1st Jan 2017- 31st Dec 2022)?

- 70-79 years old
- 80-89 years old
- 90-99 years old
- 100-109 years old

A crash could include, but is not limited to, collision with other vehicle(s), single vehicle crash, collision with pedestrians/cyclists etc. I do not need the type of crash to be distinguished in the information you provide.

For each age group, please divide the information by the number of crashes resulting in minor injuries, severe injuries, and death - and make this clear in the information provided. These can be injuries or deaths occurring to the driver or to another motorist/person.

Please see below figures for 2018 – 2022 inclusive, in order to locate and retrieve figures for 2017 would exceed the FOI time limit.

	2018	2019	2020	2021	2022	TOTAL
70-79	6	62	33	47	27	175
80-89	2	15	7	11	10	45
90-99	0	2	1	0	0	3
100-109	0	0	0	0	0	0
Total	8	79	41	58	37	223
	2018	2019	2020	2021	2022	TOTAL
70-79						
0. No Injury	2	23	12	13	7	57
