The below data has been retrieved using the location marker for 'school'. However, please be advised that location markers are used to denote a variety of circumstances which could include offences that occurred at a school, offences that occurred close to a school, and offences that were reported to a school but actually occurred somewhere else. This is because we are unable to provide information specifically for those that occurred at a school without a manual review of each crime record, however conducting these reviews would exceed the 18 hour time limit. Please also bear in mind that location markers are not a mandatory recording field and are therefore reliant on the officer inputting this field accordingly.

Year	Number
