

Would be so kind to let us know how the potential tragic number of how many serving constables passed between 1st of January 2020 and 7th of May 2024 please?

This question would summarise for any reason and regardless if constables were on duty or off duty.

Between 1st January 2020 and 7th May 2024 there were 16 police officers who died while still employed by West Midlands Police, 13 of those were constables.
